Safety

Cardinal State has not had any OHSA incidents since being founded in 2016. Cardinal State's management team is EM 385 1-1 certified and hold OHSA 30hr certification.

Service Capabilities

Cardinal State Construction, as a prime, has completed more than \$3 million in multiple interior and exterior renovation projects throughout the United States. As a subcontractor our team completed more than \$10 million in heavy civil, building renovations and high voltage electrical throughout the US.

Technical Capabilities

Project Management: Cardinal State provides careful planning and close coordination with cross-functional teams. Additionally, Cardinal State has a certified quality control manager with the most up-to-date training from USACE/NAVFAC.

Value Engineering: Cardinal State has over 25 years' experience creating cost- effective solutions. Cardinal State's vast experience and product research provides the most functional and cost-effective method of construction.

Contract Management: Cardinal State provides budget management and cost control analysis, to ensure *cost to complete* vs. *percentage of work in place* is accurate.
